Here's a report summarizing the issues identified for each application:

Report on Application Issues

1. Attorneys (Dashboard)

- **Missing Data**: Some clients' phone numbers are not present in the database.
- **Verification Email**: The system is failing to send verification emails.
- **500 Errors**:
- **Legal Issues**: Accessing this section results in a 500 error.
- **Legal Documents**: Attempting to view or manage legal documents triggers a 500 error.
- **Legal Cases**: Accessing legal cases leads to a 500 error.

2. Techworks (Dashboard)

- **Equipment Sale Order**: The Accept and Reject buttons for equipment sale orders do not function and result in a 500 error.
- **New Advertisement Submission**: Submitting a new advertisement fails with a 500 error if no picture is selected.
- **Professional Service Requests**: The Approve and Cancel buttons for professional service requests do not work, resulting in a 500 error.

3. Techworks (Mobile App)

- **Employer Specifications**: Employers seeking professionals should be able to specify the quantity, category, and location of required personnel.
- **Professional Registration**: When a professional registers, the system should allow them to submit their CV.
- **Profile Management**: Professionals should be able to create profiles in the database, update their profiles with new skills, and upload certifications.

4. Agrolives (Dashboard)

- **Notification Issues**: Clicking on a notification item leads to a 404 error on the subsequent page, indicating a missing or incorrect link.

This report categorizes each issue by platform, with descriptions of the errors encountered and functional limitations affecting user experience. After all we shall test it for assurance.

To resolve the issues:

1. Check and update the database to ensure all client phone numbers are included.
2. Fix 500 errors in the Attorneys and Techworks dashboards.
3. Enable profile and CV functionality for Techworks mobile.
4. Correct notification links on Agrolives to avoid 404 errors.
