

## **DIRM ATTORNEY APPLICATION**

- ✓ When an admin responds to a specific Document, Case or Issue, whether by attaching a file or providing a comment only, the app currently displays "case not certified yet" to the user. It's recommended to adjust this behavior to align with the functionality of the queries section, where responses are properly acknowledged regardless of file attachment.
- ✓ Make a message displayed when user open to see feedback from his/her issue or case if attorney do not attach a file and comment there. Occur on cases, issue, document and certification.
